TAMPILAN BOTTOMSHEET

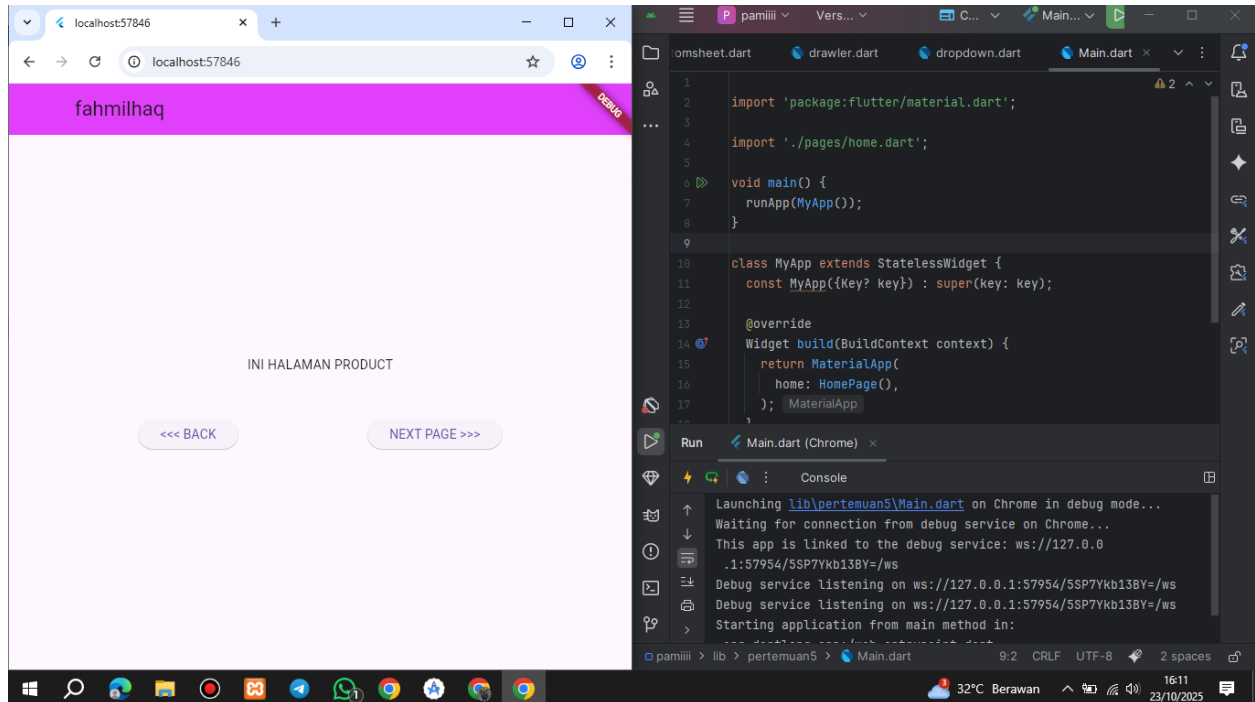

TAMPILAN DASHBOARD

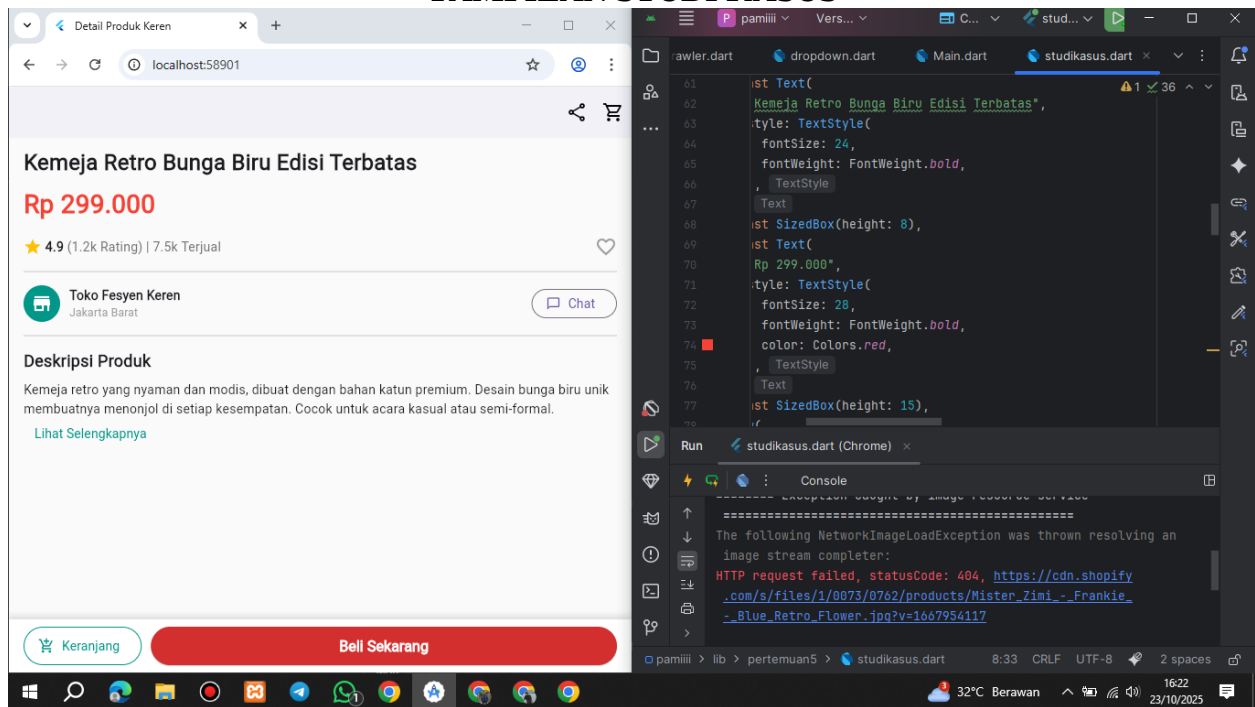

TAMPILAN DROPDOWN

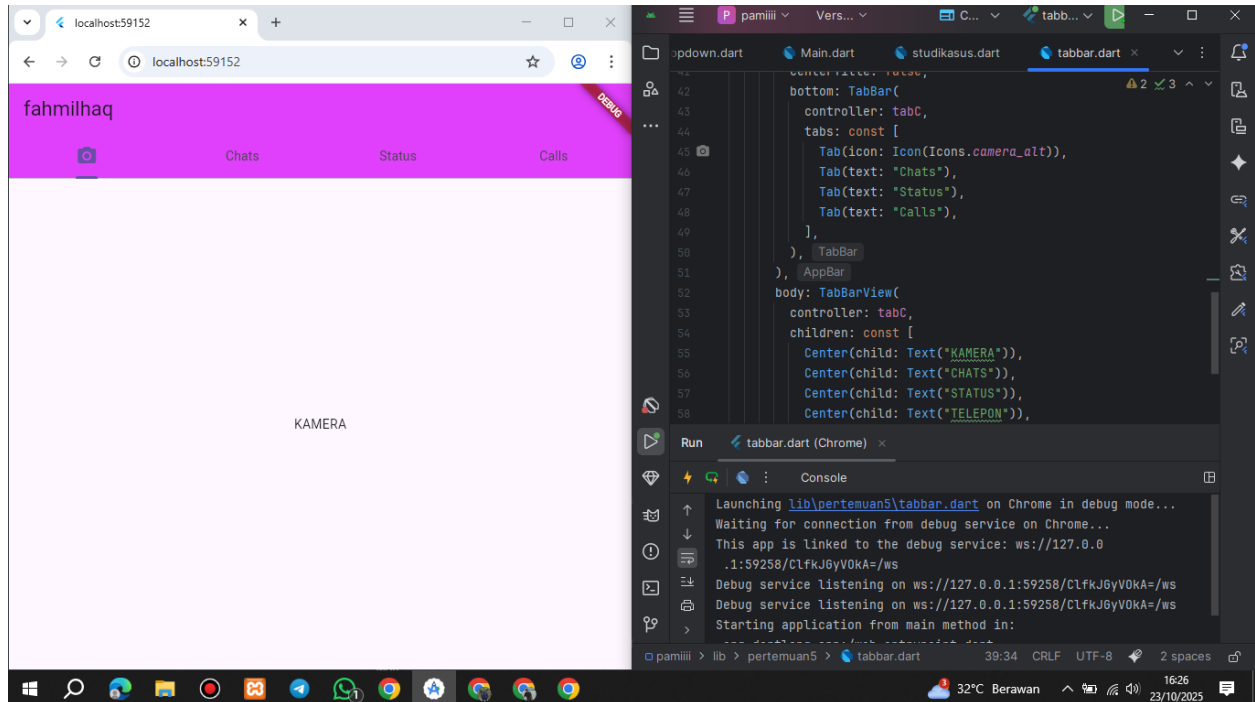

TAMPILAN PAGES

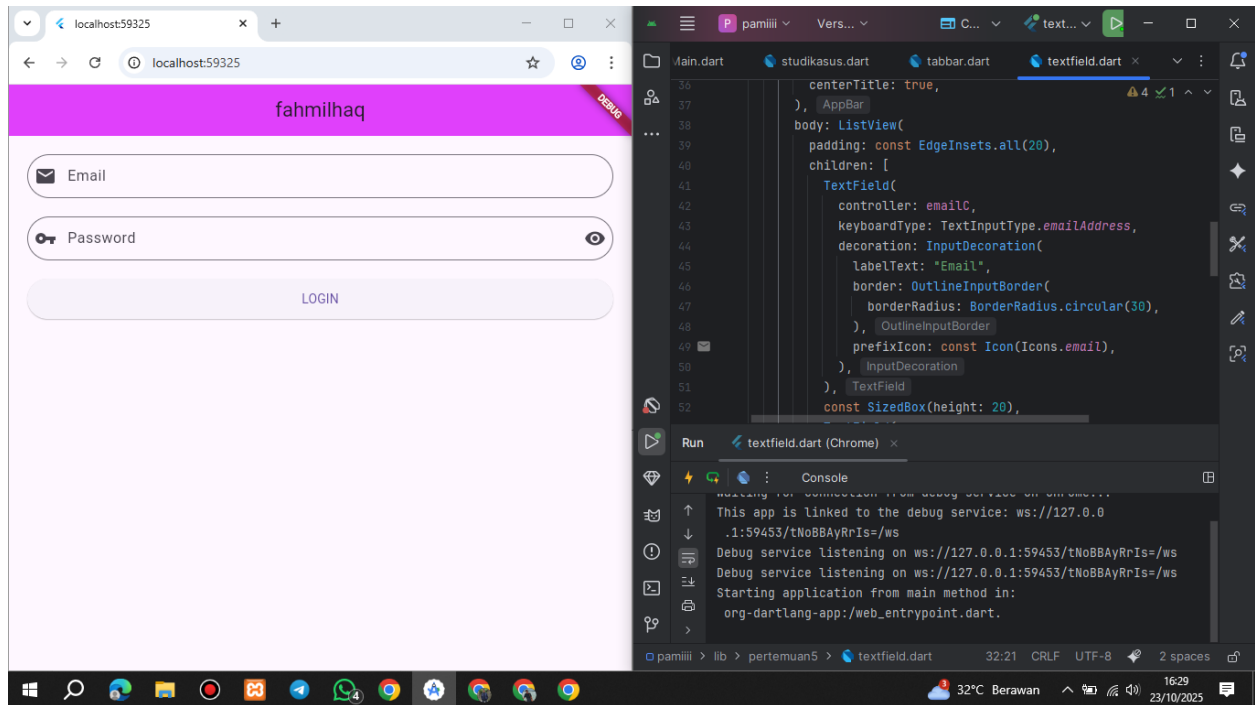

TAMPILAN STUDI KASUS

TAMPILAN TAB BAR

TAMPILAN TEXT FIELD

KESIMPULAN

Secara keseluruhan, tugas Mobile Programming ini telah berhasil diselesaikan, mencakup implementasi berbagai komponen UI esensial dalam Flutter/Dart. Proses ini memperkuat pemahaman mengenai widget navigasi (Drawer, Bottom Navigation, TabBar), widget interaksi (TextField, Dropdown), dan widget tata letak yang kompleks (SliverAppBar dalam studi kasus).
